of an Ocean-to-Ocean highway which will bring to this state thousands of dollars monthly in tourist business. We're going to have the completion of the county survey; the beginning of real colonization of the central Rio Grande valley and a dozen other beginnings leading to development of Albuquerque's tributary resources to make Albuquerque a still more important distributing center by the shall have gotten fairly under way.

and positively assured furnish us all whether or not such was the case. whose 'er up for Albuquerque's Greatest Year. Let's turn loose the cuthosiasm and get out and make the welkin ring as 1914 comes into view. tim; whether or not a council of If any vity in the west has any reason medical celebrities decided it was class in this country for years and feto celebrate joyously and unrestrainedly the advent of the New Year it for the processes of mastication and posed of the best tonics known, comcertainty is Albuquerque.

THE MINING BUSINESS.

New Mexico has forged away up into the lead among the copper producing states in the past year and now has within her borders some of the most important gold and silver producing properties in the United Just on the threshold of the new year comes the prospect of greatly increased activity in the state's leading mining districts, especially in the Burro mountain and Mogollon remons, where millions of dollars are going to be spent in the next twelve whose value is roughly estimated at thirty-nine millions of dollars and with steady shipments of the precious all do we protest against the slur and semi-precious metals, coal and placed upon the noble profession of iron and other minerals, and with record-breaking activity in the sale a stereotyped form of talse-teethand development of mining properties, New Mexico can look forward teeth item, let it at least have the
